

# SŁAWOMIR JANKOWSKI

## programming languages: C++, Python, C

### Skills

2 years of commercial experience in Open CAS Linux project  
2 years of commercial experience in closed source C++ project  
focus on security and performance  
English - advanced in speech and writing  
abstract thinking  
good work organisation  
interpersonal skills  
inclusive and non-violent communication

### Repositories

[www.github.com/Ostrokrzew](https://www.github.com/Ostrokrzew)

Repository for uploading some simple side projects.

### Schools

**2014-2017** technical IT school

**grade:** IT specialist

**2017-2021** WSB University

**grade:** IT engineer

### Jobs

**2019-2021** Software Development Intern at Intel Technology Poland

I mostly helped with the development of the OpenCAS product for a Linux platforms.

I also took part in developing testing framework created specifically for the OpenCAS which was based on the PyTest.

**2021-2022** Software Engineer at Intel Technology Poland

I developed the software code and tests of the product for speech recognition.

I developed tools for running and testing local instance of the product.

**2022-2023** AI Algorithm Engineer at Intel Technology Poland

I work on developing modular next generation of the mentioned speech recognition product.

I develop not only a software code but also a firmware quality code.

I integrate independent parts of the final product for low latency platforms using Gaussian Network Accelerator.

I'm responsible for rewriting and updating the CI/CD pipeline with usage of the Conan Package Manager.

## About me

I'm well-working and reliable man. When I have to do something, it will be done. If I need to, I make notes to not forget anything and to share knowledge.

I like it when people help each other. In my job I was appreciated by both staff and colleagues many times in form of peer-to-peer recognition.

I'm very curious about the world and I learn quickly. I like to read technical books.

It's easy for me to communicate with people and to establish interpersonal friendly relations.

I conducted Python programming workshops for teenagers.

I think my greatest strength are my cooperation skills. Whenever I can share some experience with others, I do it. It's good to be part of a team.

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018

(Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of

natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection

Regulation).
