

SŁAWOMIR JANKOWSKI

Hi, I'm Sławomir and I'm interested in programming using Python, C++ or Java.

Other code languages will come with necessity.

Courses & Workshops

course "Python dla każdego. Podstawy programowania" by Michael Dawson

I acquired not only basic skills in Python programming and OOP.

course "Język C# w siedem dni. Solidne podstawy programowania obiektowego" by Gaurav Aroraa

course "Podstawy programowania w języku C++" by Józef Zieliński

I'm also taking videocourse on Udemy "C++ Tutorial for Complete Beginners." by John Purcell to understand the rules of C++ operation.

Skills

2014-2015 hardware assortment specialist in "Tygrysek" store

2016-2019 librarian's assistant in "Gminna Biblioteka Publiczna" in Luzino, in 2017 promoted to digitalization specialist

About me

I'm well-working and reliable man. When I have to do something, it would be done. If I need to, I make notes to not forget anything.

I like it when people help each other. In every my job I was appreciated by both staff and colleagues.

I'm very curious about the world and I learn quickly. I started my last three jobs without any experience, but after few months I was great.

I can speak english well. It is easy for me to communicate with people and to establish interpersonal relations. I worked temporarily as security guard in store and I had to talk with foreigners from EU and Russia.

In my last job I conducted programming workshops for children from elementary school. Kids loved it.

After four semesters in college I'm slightly advanced programmer. I like Python language, but I also learned C# and Java basics.

I think my greatest strenght is my intelligence and smile. Whenever I can share some experience with others, I do it. It's good to be part of a team.
