

SŁAWOMIR JANKOWSKI

Hi, I'm Sławomir and I'm interested in C and Python programming.

Skills

2 years of commercial experience in Open CAS Linux project

3D debugging technique

CPT coding technique

focus on security and performance

English - advanced

abstract thinking

interpersonal skills

good work organisation

good manners

Repositories

<https://github.com/Ostrokrzew>

My own repository for uploading some projects.

<https://github.com/Open-CAS>

Open CAS Linux project repository.

Schools

2014-2017 technical IT school

grade: IT specialist

2017-2021 WSB University

grade: IT engineer

Jobs

2019-2021 software development intern in Intel Technology Poland

About me

I'm well-working and reliable man. When I have to do something, it would be done. If I need to, I make notes to not forget anything.

I like it when people help each other. In my job I was appreciated by both staff and colleagues.

I'm very curious about the world and I learn quickly. I started my last jobs without any experience, but after few months I was very helpful for teammates.

It is easy for me to communicate with people and to establish interpersonal relations.

In my one before last job I conducted programming workshops for children from elementary school. Kids loved it.

I like Python, but I also learned C as an intern at Intel and I really enjoy it.

I think my greatest strenght is my cooperation and smile. Whenever I can share some experience with others, I do it. It's good to be part of a team.
