Repositories

www.github.com/Ostrokrzew

Repository for uploading some simple side projects.

Schools

2014 - 2017 technical IT school

grade: IT specialist

2017 - 2021 WSB University

grade: IT engineer

Jobs

2019 - 2021 Software Development Intern at Intel Technology Poland

2021 - 2022 Software Engineer at Intel Technology Poland

2022 - now AI Algorithm Engineer at Intel Technology Poland

About me

I'm well-working and reliable man. When I have to do something, it will be done. If I need to, I make notes to not forget anything and to share knowledge.

I like it when people help each other. In my job I was appreciated by both staff and colleagues many times in form of peer-to-peer recognition.

I'm very curious about the world and I learn quickly. I like to read technical books.

It's easy for me to communicate with people and to establish interpersonal friendly relations.

I conducted programming workshops for teenagers pro bono.

I think my greatest strength are my cooperation skills. Whenever I can share some experience with others, I do it. It's good to be part of a team.

I agree to the processing of personal data provided in this document for realising the recruitment process and all future recruitment processes pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
